Mission Statement

By Word and Sacrament, we are sent to glorify God with our lives.

School Happenings:

Catholic teaching has long upheld the dignity of work as central to the human experience. Work is not simply a means to earn a livelihood but a vital part of our vocation as God's children. Through work, we participate in God's creation, cooperating with His divine plan and contributing to the common good. "It is only by the labor of working men that States grow rich. Justice, therefore, demands that the interests of the working classes should be carefully watched over by the administration, so that they who contribute so largely to the advantage of the community may themselves share in the benefits which they create." (*Rerum Novarum*, 34) This teaching is rooted in the understanding that man, created in the image and likeness of God, fulfills his vocation through honest and diligent work. Work is not merely a burden but a means of sanctification, a way to imitate Christ, who Himself labored as a carpenter.

The right to just wages, safe working conditions, reasonable hours, and rest are not simply privileges but are essential to respecting the dignity of the human person. These rights are closely linked to our duties—to work honestly, to respect the common good, and to use our talents in service to others. The Church has always called for a balance between labor and capital, emphasizing that economic systems must serve the human person, not the other way around. "Every effort must be made that providers of families receive a wage sufficient to meet adequately ordinary needs." (*Quadragesimo Anno*, 71)

The rhythm of work and rest, as ordained by God, is a pattern for human life. The Catechism of the Catholic Church reminds us of this sacred rhythm: "On Sundays and other holy days of obligation, the faithful are to refrain from engaging in work or activities that hinder the worship owed to God, the joy proper to the Lord's Day, the performance of the works of mercy, and the appropriate relaxation of mind and body." Let us pray that our labors may always be pleasing to God, that we may find joy and purpose in our work, and that we may contribute to the building of a more just and charitable society. As we rest on Labor Day, may we do so with hearts full of gratitude, mindful of our call to serve God and our neighbor through the work of our hearts and our hands.

Trinity High School has a new program this season, girls' golf. Both Olivia Ward and Rylie Hayden advanced to the All-A State Championship that will be played September 7th in Richmond, KY. Way to go girls! The Trinity High School boys' golf team defeated McLean County at Panther Creek last week and Hayden Aull won the match. Way to go boys! The Trinity volleyball team started strong this year defeating Hancock County last week and finishing 3-0 in pool play for the Apollo Summer Slam defeating University Heights, Green County and Northeast (Clarksville). They advanced to the gold division where they finished in 4th place. Congratulations on a great start girls. The Trinity High School cross country team kicked off this weekend in the Kentucky-Indiana Border Clash. Our leading runners for Trinity were Wade Burch, Jacob Aud, Ehan Jarboe and Ian White.

The SMWS middle school volleyball team had a successful week. The 8th grade team competed in the DCMS Summerfest tournament and defeated Henderson South Middle School. There was a lot of good competition there and our athletes represented us well. On Monday 8/19, the 6th/7th grade team came up short against Oak Ridge Christian Academy but our 8th grade won in two straight sets. On Wednesday 8/21, both our 6th/7th grade team and 8th grade team beat Mary Carrico Middle School Softball won both games on 8/22. The A game was 15-6. All of the girls hit well (13 hits total for the team) and Michaela Knight pitched a great game. The outfielders really showed their strengths as well. The B game won 2-1. Several girls were in new positions and each held their own! The SMWS Cross Country teams kicked off this weekend in the Kentucky/Indiana Border Class. Hugh Williams, Jasper Roby, Luke Howard and Carter Mayfield led the SMWS middle school team. The SMWS girls' elementary was led by Paisley Merritt, Remi McDaniel, Ellis Morris, and Blair Wilson. The SMWS boys' elementary was led by Gabe Bickett, Jude Shelton, Griffin Hatfield, and James Morris.

Congratulations to all of our student athletes! We are proud of you!

Together We Can! Capital Campaign

Together We Can Presentation **Summary** to Parish on 08-25-2024 by Terra Knight, Chair of the Steering Committee

Quick Review: When we started planning, if you remember the picture boards that were in the back of church, that was the idea of what we could build for the new school. It was labeled to be built in 2 phases – Phase 1 being the school and Phase 2 being a gym and auditorium to be added at a later time. Estimated cost was \$12 million for the school (Phase 1) and an additional \$2 million for the gym and auditorium (Phase 2) (\$1 million each). Those were the goals that we started with when we kicked off the Capital Campaign and started trying to raise the money for the project. Fast forward to August 2024: Current pledges: apx \$11.4 million; Current money on hand: apx \$5.5 million. Of course those cost estimates were provided 3 years ago. Since then there has been this thing called “inflation” that has come around – So once our architect provided us updated numbers on the original building plan (the one that was shown on the boards in the back of church) of course due to inflation its now way over the original budget numbers. So... back to the drawing board.

The best alternative for this was to cut out the “wings” which eliminates several exterior walls and roof lines – that eliminates quite a bit of cost. We’ve also made some changes to the materials of the exterior walls – only having full brick on the front of the building, going up only a portion on the sides and back, things like that. So again, instead of having 3 separate wings and a separate gym and auditorium jutting off the side and back, you’ll have one large square/rectangle building. Once we saw that design we realized there is actually an upside to changing to that design – now the gym will be enclosed within the main building and there will be enough space for an auditorium.

After making some design changes, full cost for this new layout – turn key, fully furnished, all site work completed, etc is \$16.9 million. Well Terra, you say, that is more than the original budget of \$14 million. Yes it sure is. Thank you, inflation. BUT again, that is to complete the entire project in one full go – one phase. So, using the money we have pledged at this point, we go back to the Phase 1/Phase 2 idea. Again, working with the architect and the amount pledged for the project (pledged amounts is what the Diocese is looking at for purposes of approving a project) we have been able to break down a phase 1 that we can start on now with the pledges that we have.

Phase 1 will include: The full finished exterior of the entire building, everything all enclosed under 1 roof. All of the interior of the SMWS side completed including the spaces to be shared with THS like the cafeteria, media center/storm shelter, admin offices, etc. Also included in that figure is the full finished site work, including extra paved parking off to the side (which we may not need and could probably leave as a grassy area, but again, those talks are still being had). **Phase 1 will cost \$11.2 million.** We have \$11.4 million pledged – mission accomplished!! We’re ready to move forward with Phase 1 as soon as we present to the Diocesan Building Committee and get their approval. **Phase 2** would then consist of finishing the interior of the THS side of the building and finishing the interior of the gym and auditorium, and any additional/final site work. **Phase 2 would be at a total cost of \$5.7 million.**

What happens if we can’t get the high school interior finished and moved in when St Mary’s moves in? That was my first question when I heard this proposal from the architect. We do have a contingency plan for that BUT – it shouldn’t have to happen if we stay on the original course of having our 2nd round of capital campaign and ask donors renew their pledges. We, just us in this parish alone (excluding the large donors), pledged \$4.5 million. That will more than cover the THS interior being finished.

Our architect estimates it would take 18-24 months to complete construction. We can still bring in pledges during that time period to reach our Phase 2 goal. If we get enough pledges to complete Phase 2 while construction for Phase 1 is still going on, then just keeps right on going and finishes the inside of THS and both schools move in together. We are rolling into year 3 of our pledge period, construction won’t finish for 2 years once it does start. So round 2 of the Capital Campaign will still be coming at the end of the first 5 year period. This is your heads up! Round 2 will be coming...

Next step – head to Diocesan Building Committee for approval; then we’ll be able to start the site work, and move forward with construction of this new Phase 1.

- Advertising in the Weekly Parish Bulletin is one of the best returns for your advertising dollar.
- The advertising expense is tax deductible.
- It is localized advertising; it's in the area that you serve.
- Advertising helps promote your business throughout the community.
- The bulletin gives excellent exposure to the business person because it's reaching more clients.
- Parishioners feel secure dealing with bulletin sponsors.
- The Parish and the Businesses both benefit.
- We spotlight a sponsor each week.

If you do not have a business, but personally know of someone who does, please help the Parish by referring that person or business.

For more information on sponsorship, please contact Samantha McMichael at the Parish Office, 270-233-4196 or samantha.mcmichael@stmarywoods.com
